

Faculty Name:

Clark Hung

Faculty Email:

cth6@columbia.edu

Lab:

Cellular Engineering Laboratory

Project Title:

Synovial Joint Research

Description:

Students will work on projects in the Cellular Engineering Laboratory (CEL) related to knee joint and factors that lead to joint degeneration and osteoarthritis. Students will work with cell and tissue culture, mechanical testing, biochemical and molecular assays.

Location of Research:

On Site

of hrs/week:

30

Department/Program:

Biomedical Engineering

Eligibility:

BS, Second Year, BS, Third Year

To apply, please contact:
