

## COLUMBIA ENGINEERING SUMMER@SEAS

Summer 2018

12:30 – 2:00PM

524 Mudd

| DATE       | Title  | Presenters             | Department                       |
|------------|--|------------------------|----------------------------------|
| 5/30/2018  | The Future of Transportation   | Professor Sharon Di    | Biomedical Engineering           |
| 6/6/2018   | Engineering with Biomolecular Materials  | Professor Henry Hess   | Biomedical Engineering           |
| 6/13/2018  | COSMOS: A Platform for Advanced Wireless Research  | Professor Gil Zussman  | Electrical Engineering           |
| 6/19/2018  | Theater outing   | Anastasia              | Broadhurst Theatre               |
| 6/20/2018  | Solar Fuels for a Sustainable Energy Future  | Professor Dan Esposito | Chemical Engineering             |
| 6/27/2018  | Making the Most of Your Summer: Your Lab Notebook  | Professor Michael Mael | Applied Math and Applied Physics |
| 7/4/2018   | <b>HAPPY</b>   | <b>JULY</b>            | <b>4TH</b>                       |
| 7/11/2018  | Graduate School and Career Paths   | James Teherani         | Electrical Engineering           |
| 7/18/2018  | How to and how not to: Presenting Science  | John Kymissis          | Electrical Engineering           |
| 7/25/2018  | Mechanics of Embryonic Development: Understanding and controlling how cells build tissues and organs | Karen Kasza            | Mechanical Engineering           |
| 7/25/2018  | Theater outing   | Come From Away         | Gerald Schoenfeld Theatre        |
| 8/1/2018   | End of summer presentations  | Student Volunteers     |                                  |
|            |  |                        |                                  |
|            |  |                        |                                  |
|            |  |                        |                                  |
|            |  |                        |                                  |
| 10/04/2018 | Research Symposium   |                        |                                  |
|            |  |                        |                                  |
|            |  |                        |                                  |

All students are welcome to join the Summer@SEAS program. Please send your email contact to [lb2258@columbia.edu](mailto:lb2258@columbia.edu) and you will be placed on the mailing list to receive weekly email notifications and program updates.
